

WASTE FACILITY PERMIT

Issued By: Kildare County Council

Issued under: Waste Management Act, 1996
Waste Management (Facility Permit & Registration) Regulations
2007, as amended
European Union (End of Life Vehicles) Regulations 2014, as
amended

WFP Register Number:

WFP-KE-20-105-02

Issued to: Permit Holder

Wilton Scrap Metals Limited,
Unit M1 Osberstown Industrial
Estate, Osberstown, Naas,
Co. Kildare

Location of Facility:

Osberstown Industrial Estate,
Osberstown, Naas, Co. Kildare

Permit Holder Contact Details:

Tel No.: 045 896 369

E-mail: naas@wilton.ie

Date Granted: 13/11/2025

Date of Expiry: 13/11/2030

Signed : 

Date: 13/11/2025

NOTE 1: Should the permit holder wish to continue to operate after the date of expiry, an application to review the waste facility permit shall be made to Kildare County Council in accordance with Article 31 (1) of the Regulations no later than 60 working days before the date of expiry of this waste facility permit

NOTE 2: Should the permit holder not wish to continue waste activities at any time or after the date of expiry of this waste facility permit, the permit holder shall by notice in writing apply to Kildare County Council for the surrender of the waste facility permit in accordance with Article 29 of the Regulations.

DECISION OF KILDARE COUNTY COUNCIL

In pursuance of the powers conferred on it by the Waste Management Act 1996, as amended, the European Union (End of Life Vehicles) Regulations 2014, as amended and the Waste Management (Facility Permit and Registration) Regulations 2007, as amended, Kildare County Council grants this Review Waste Facility Permit under Article 35 of the said Regulations to Wilton Scrap Metals Ltd. of Unit M1 Osberstown Industrial Estate, Osberstown, Naas, Co. Kildare for the facility at Unit M1 Osberstown Industrial Estate, Osberstown, Naas, Co Kildare.

NOTE

THE GRANTING OF THIS REVIEW WASTE FACILITY PERMIT AND ANY CONDITION IMPOSED BY IT, DOES NOT EXEMPT THE HOLDER OF THE PERMIT FROM COMPLYING WITH THE STATUTORY OBLIGATIONS OF ANY RELEVANT LEGISLATION, INCLUDING WATER POLLUTION, AIR POLLUTION, WASTE, LITTER AND PLANNING LEGISLATION.

SCHEDULE OF ACTIVITIES PERMITTED

For the purposes of the Waste Management (Facility Permit and Registration) Regulations 2007, as amended, the waste facility permit is issued for the following classes of activity under Part I of the Third Schedule of the above regulations:

Class No.	Description
1	<p>The reception and temporary storage, pending collection, other than by a local authority, where not otherwise regulated by a waste licence or certificate of registration, or exempted in accordance with the provisions of article 42 of the European Union (Waste Electrical and Electronic Equipment) Regulations 2014 S.I. No. 149 of 2014 –</p> <p>(1) household hazardous waste (other than WEEE and mercury containing waste or used batteries and accumulators) at a civic amenity facility, recycling centre or central collection point, where the annual intake shall not exceed- -</p> <p style="padding-left: 40px;">(i) in the case of liquid waste, 100,000 litres,</p> <p style="padding-left: 40px;">(ii) in the case of non-liquid waste, 100 tonnes.</p> <p>(2) WEEE at any premises</p> <p>for the purpose of onward transport and submission to recovery at an authorised facility.</p>
2.	<p>The Reception, storage (including temporary storage) and recovery of waste vehicles (other than end – of – life vehicles) having regard to the provisions of the articles 14 and 15 of the European Union (End – of – Life Vehicles) Regulations 2014 (S.I. No. 281 of 2014).</p>

3	<p>The reception, treatment and recovery of WEEE (including removal of all fluids and dismantling or disassembly or removal of WEEE substances, preparations and components prior to treatment) in accordance with the provisions of articles 21 and 22 of the European Union (Waste Electrical and Electronic Equipment) Regulations 2014 (S.I. No. 149 of 2014). Annual intake shall not exceed 10,000 tonnes per annum.</p>
4	<p>The reception, storage and recovery of scrap metal, including scrap metal arising from end-of-life vehicles, waste vehicles (other than end-of-life vehicles) and WEEE where scrap metal from –</p> <p>(1) end-of-life vehicles shall be subject to appropriate treatment and recovery in accordance with the provisions of articles 14 and 15 of the European Union (End-of-Life Vehicles) Regulations 2014 (S.I. No. 281 of 2014) prior to acceptance at the scrap metal facility, and as appropriate,</p> <p>(2) waste vehicles (other than end-of-life vehicles) shall be subject to appropriate treatment and recovery having regard to the provisions of articles 14 and 15 of the European Union (End-of-Life Vehicles) Regulations 2014 (S.I. No. 281 of 2014) prior to acceptance at the scrap metal facility, and as appropriate,</p> <p>(3) WEEE shall be subject to appropriate treatment and recovery in accordance with the provisions of articles 21, 22 and 23 of the European Union (Waste Electrical and Electronic Equipment) Regulations 2014 (S.I. No. 149 of 2014) prior to acceptance at the scrap metal facility.</p>
7	<p>Recovery of inert waste arising from construction and demolition activity, including concrete, bricks, tiles, or other such similar material, at a facility (excluding land improvement or development) where –</p> <p>(a) the annual intake shall not exceed 50,000 tonnes, and</p> <p>(b) the maximum quantity of residual waste consigned from the facility for collection, onward transport and submission to disposal at an authorised facility shall not exceed 15% of the annual intake. (Principal Activity)</p>
10	<p>The recovery of waste (not mentioned elsewhere in this part of the third schedule), other than hazardous waste or an activity where there is a scheduled requirement to hold an IPPC licence or a waste licence, where –</p> <p>(a) the annual intake does not exceed 50,000 tonnes, and</p> <p>(b) the maximum quantity of residual waste consigned from the facility for onward transport and submission to disposal at an authorised facility shall not exceed 15% of the annual intake.</p>

12	The collection and storage (including temporary storage) and the appropriate treatment and recovery of end-of-life vehicles in accordance with the provisions of articles 14, 15 and 16 of the European Union (End-of-Life Vehicles) Regulations 2014 (S.I. No. 281 of 2014).
----	---

For the purpose of the Waste Management Act, 1996, as amended, the waste facility permit is issued for the following class of waste disposal activity under the Third Schedule of the Waste Management Act, 1996, as amended:

D 15 Storage pending any of the operations numbered D 1 to D 14 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

For the purpose of the Waste Management Act, 1996, as amended, the Waste Facility Permit is issued for the following classes of waste recovery activity under the Fourth Schedule of the Waste Management Act, 1996, as amended

R 3 Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes), which includes gasification and pyrolysis using the components as chemicals

R 4: Recycling/reclamation of metals and metal compounds.

R 5: Recycling/reclamation of other inorganic materials, which includes soil cleaning resulting in recovery of the soil and recycling of inorganic construction materials. (Principal Activity)

R12: Exchange of waste for submission to any of the operations numbered R 1 to R 11 (if there is no other R code appropriate, this can include preliminary operations prior to recovery including pre-processing such as, amongst others, dismantling, sorting, crushing, compacting, pelletising, drying, shredding, conditioning, repackaging, separating, blending or mixing prior to submission to any of the operations numbered R1 to R11)

R 13: Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5 (1)), pending collection, on the site where the waste is produced)

Condition 1: SCOPE

- 1.1 This waste facility permit is issued under the Waste Management (Facility Permit and Registration) Regulations 2007, as amended and the European Union (End of Life Vehicles) Regulations 2014, as amended to Wilton Scrap Metals Ltd. of Unit M1 Osberstown Industrial Estate, Osberstown, Naas, Co. Kildare for the recovery of waste metals, construction and demolition wastes, commercial, bulky and industrial wastes and the storage, depollution and recovery of end of life vehicles.
- 1.2 This waste facility permit is granted for a period not exceeding 60 months from the date of issue.
- 1.3 The permit holder shall ensure that that the maximum tonnage of waste that can be accepted at the permitted facility is 50,000 tonnes per annum.
- 1.4 Should environmental pollution occur at the site, the waste facility permit may be reviewed by Kildare County Council.
- 1.5 For the purpose of the waste facility permit, the facility is the area outlined in red on the Site Location Map, titled "Site Location Map", drawing no. A231-WFP001, scale 1:2500, received on the 15/09/2025, except where altered or amended by conditions of this waste facility permit.
- 1.6 For the purpose of the waste facility permit, the waste activities shall be carried out as shown on the Site Layout Plan, titled "Waste Processing", drawing no. A231 – WFP004, scale 1:500, received by the Kildare County Council on the 15th September 2025.
- 1.7 The permit holder shall ensure that waste and recovered parts shall be stored in designated storage areas as shown on the Site Layout Plan, titled "Waste Processing", drawing no. A231 – WFP004, scale 1:500, received by the Kildare County Council on the 15th September 2025.
- 1.8 The permit holder shall ensure that all surface water likely to be contaminated shall pass through adequately sized and sited silt trap(s), petrol/oil interceptor(s) and attenuation tank(s) before discharge to the surface water system and as shown on Proposed Surface Water Network Layout Plan, drawing number A231-WFP005, received by Kildare County Council on the 15th of September 2025.
- 1.9 The permit holder shall ensure that all foul sewage, trade effluent and soiled water shall pass through adequately sized and sited silt trap(s) and petrol oil interceptor(s) before discharge to the foul sewer system and as shown on Proposed Foul Network Layout Plans, drawing number A231-WFP006, received by Kildare County Council on the 15th of September 2025.

- 1.10 The waste facility permit is for the purpose of waste permitting under the Waste Management Act 1996, as amended and nothing in this waste facility permit shall be construed as negating the permit holders statutory obligations or requirements under any other enactments or regulations.
- 1.11 The Permit Holder shall comply at all times with the provisions of Articles 14, 15 and 16 of S.I. No. 281 - European Union (End of Life Vehicles) Regulations 2014, as amended. Failure to do so is an offence under Article 34 of the said regulations.
- 1.12 The Permit holder shall ensure that a Certificate of Destruction is issued for all end of life vehicles that enter the permitted facility. The permit holder shall comply at all time with the provisions of Articles 18, 19, 20, 21, 22, 23 and 24 of the European Union (End of Life Vehicles) Regulations 2014, as amended. Failure to do so is an offence under Article 34 of the said regulations.
- 1.13 Collection, storage (including temporary storage), treatment and recovery of end of life vehicles shall only be carried out at the facility in accordance with the provisions of Articles 14 and 15 and Schedule 2 of the European Union (End of Life Vehicles) Regulations 2014, as amended.
- 1.14 Only those waste types specified in Appendix A of this waste facility permit, shall be accepted at the facility.
- 1.15 The permit holder shall give notice in writing to Kildare County Council of any significant changes in the information furnished in the application for the permit. Such notice shall be given within three weeks of any such change arising. On receipt of this information Kildare County Council may require a new or review waste permit application to be submitted.
- 1.16 The permit holder shall be responsible for ensuring that the waste activities are controlled, operated and maintained in strict accordance with the terms of the application as modified and/or controlled by the conditions attached to the waste facility permit and conditions attached to Planning Permission Ref. No.13/581 and 19/1003. The permit holder shall establish procedures to ensure that corrective action is taken should any condition of this permit not be complied with. Kildare County Council shall be notified of any such breach by telephone/email and full details shall be forwarded in writing on the next working day.
- 1.17 Where Kildare County Council considers that a non-compliance with the conditions of this permit has occurred, it may serve a notice on the permit holder specifying;
 - (a) that only those wastes as specified, if any, in the notice are to be accepted at the facility after the date specified in the notice; and
 - (b) that the permit holder shall undertake the works stipulated in the notice, and/or otherwise comply with the requirements of the notice, as set down therein, within any time-scale contained in the notice.

When the notice has been complied with, the permit holder shall provide written confirmation to the Council that the requirements of the notice have been carried out. No waste, other than that which is stipulated in the notice, shall be accepted at the facility until written confirmation is received from the Council that the notice is withdrawn.

REASON: To clarify the scope of this permit.

Condition 2: MANAGEMENT OF THE ACTIVITY

- 2.1 The permit holder shall acquaint all staff, employees, lessees and agents, including replacement personnel of the provisions and conditions of this permit.
- 2.2 A copy of the permit shall be kept at the facility at all times.
- 2.3 Kildare County Council shall have unrestricted access to the premises at all reasonable times on production of identification, if required, for the purpose of their functions under the Waste Managements Act 1996, as amended. The site shall be adequately manned and supervised at all times.
- 2.4 (a) A suitably qualified and experienced facility manager shall be designated as the person in charge. The facility manager or a nominated suitably qualified and experienced deputy shall be present during the operation of the facility. The permit holder shall ensure that the facility manager or the deputy shall be available on site to meet with authorised persons of Kildare County Council at all reasonable times.

(b) The permit holder shall ensure that personnel performing specifically assigned tasks shall be qualified on the basis of appropriate education, training and experience and shall be aware of the requirements of the waste permit.
- 2.5 The permit holder shall establish and maintain Awareness and Training Procedures for identifying training needs and for providing appropriate training for personnel whose work is related to the permitted facility. Written records of training shall be maintained.
- 2.6 The site shall only operate between the hours of 07.00 to 19.00, Monday to Friday inclusive and 08.00 to 17.00 on Saturdays. The site shall not operate on Sundays, Bank and National Holidays.
- 2.7 Deliveries/collections to the development/ haulage to and from the development shall be between the hours of 08.00 to 18.00 Monday to Friday inclusive and 08.00 to 14.00 on Saturdays. There shall be no deliveries or collections on Sundays, Bank and National Holidays.

- 2.8 Recovery and dismantling activities shall only be undertaken by persons authorised to do so by the permit holder. Employees with responsibilities in the waste control area shall receive training adequate to enable them to execute their tasks in relation to pollution control.
- 2.9 The permit holder shall establish and maintain an environmental management documentation system, which shall be to the satisfaction of Kildare County Council and in accordance with the European Union (End of Life Vehicles) Regulations 2014, as amended.
- 2.10 The permit holder shall ensure that all waste activities at the facility are consistent with the policies and objectives of the National Waste Management Plan for a Circular Economy 2024-2030 and the current National Hazardous Waste Management Plan, as may be varied or replaced from time to time.
- 2.11 Within **two months** of the date of grant of this waste permit, the permit holder shall submit written details of the management structure of the facility for the agreement of Kildare County Council.
- 2.12 The permit holder shall establish and maintain a programme for maintenance of all plant and equipment based on the instructions issued by the manufacturer/supplier or installer of the equipment.
- 2.13 A service contract shall be in place and maintained with an appropriate authorised company for the maintenance and servicing of silt traps and petrol/oil interceptor(s) in accordance with manufacturers instructions

REASON: To make provision for the proper management of the facility on a planned basis having regard to the desirability of ongoing assessment, recording and reporting of matters affecting the environment.

Condition 3: NOTIFICATION AND RECORD KEEPING

- 3.1 All communications with Kildare County Council shall be addressed to Senior Executive Officer, Environment Section, Kildare County Council, Áras Chill Dara, Devoy Park, Naas, Co Kildare.

Telephone (045) 980588, E-mail environ@kildarecoco.ie

- 3.2 The permit holder shall immediately notify Kildare County Council of any incident which occurs as a result of the activity on the site and which:-

- (i) Has the potential for environmental contamination of surface water or ground water, or
- (ii) Poses an environmental threat to air or land, or
- (iii) Requires an emergency response by Kildare County Council.

This notification shall be by both telephone and e-mail, if available, as soon as is practicable after the occurrence of the incident. The permit holder shall include as part of the notification, date and time of the incident, details of the occurrence, and steps taken to avoid reoccurrence. The notification given to the Council shall include details of the circumstances giving rise to the incident and all actions taken to minimise the effect on the environment and minimise wastes generated. The permit holder shall make a record of any incident as set out above.

- 3.3 The permit holder shall maintain a register of full records for a period of not less than 7 years, open to inspection by authorised persons at all reasonable times, of matters relating to the waste management operations and practices at this facility. The records shall contain at a minimum the following information:

Waste Acceptance:

- a) the dates and times of all waste consignments, end-of-life vehicles and depolluted end of life vehicles delivered to the facility;
- b) the origin of each end of life vehicle and other waste types to the site;
- c) the tonnage and composition of waste consignments' and end of life vehicles delivered to the facility including the description of the material in each load (including the Waste Classification as The List of Waste (LoW) and description(s) pursuant to Commission Decision 2014/955/EEC of 18 December 2014 or subsequent amendments);
- d) the treatment, recovery or disposal activity to which the waste and end of life vehicles are subject to, including the compilation of commercial documentation for all collected waste deposited at the facility;
- e) when loads are removed or rejected, details of the date and time of occurrence, the type of material and the place to which they were removed;

- f) the names and collection permit numbers of the carriers and the vehicle registration numbers;
- g) certificates of destruction for each end of life vehicle depolluted on site;
- h) the name of the person checking the load;
- i) details of non-metal wastes (from end of life vehicles) such as tyres, airbag cylinders, plastic, foam, catalytic convertors, glass etc;
- j) the tonnage and type of all end-of life vehicles not accepted at the site and details to where such vehicles were diverted.

Waste Leaving Site:

- a) the dates and times of all waste consignments, depolluted end of life vehicles and end of life vehicles leaving the site including the description of the material in each load (including the Waste Classification as The List of Waste (LoW) and description(s) pursuant to Commission Decision 2014/955/EEC of 18 December 2014 or subsequent amendments);
- b) the tonnage of the waste material sent off site for recovery or disposal (including the Waste Classification as The List of Waste (LoW) and description(s) pursuant to Commission Decision 2014/955/EEC of 18 December 2014 or subsequent amendments);
- c) the names and collection permit numbers of the carriers and the vehicle registration numbers;
- d) details of all facilities, including certificate of registration/permit/licence numbers which are being used to receive such wastes;
- e) a consignment note number(including TFS notification and movement / tracking form numbers as appropriate);
- f) details including registration numbers of any rejected consignments and reason for rejection.

The dockets/records shall be kept up to date at all times and must be maintained at the place of business for a period of not less than 7 years. These records shall be available for inspection at the principal place of business during normal working hours by authorised officers of Kildare County Council and any other person authorised under Section 14 of the Waste Management Acts 1996, as amended. The permit holder shall comply with the provisions of this condition unless otherwise agreed in writing by Kildare County Council. The above records shall be kept up to date at all times and available for inspection. Kildare County Council may issue direction to the permit holder at any stage in order to ensure comprehensive and accurate records are maintained.

- 3.4 The permit holder shall ensure that the Certificate of Destruction issued by an authorised facility shall:
- i. contain at least the information listed in Schedule 3 of the European Union (End of Life Vehicles) Regulations 2014. (See Appendix D)
 - ii. unique number of the certificate of destruction and its date of issue
 - iii. be compiled and maintained by the authorised treatment facility in a form specified by the Minister.
 - iv. comply at all times with the provisions of Articles 18, 19, 20, 21, 22, 23 and 24 of the European Union (End of Life Vehicles) Regulations 2014, as amended.
- 3.5 The permit holder shall maintain records in accordance with Article 23 of European Union (End of Life Vehicles) Regulations 2014, as amended.
- 3.6 The permit holder shall maintain records, which ensures full traceability of any waste purchased at the facility. The following information is required:
- (i) the person supplying the material provides proof of identity, such proof being:
 - (a) a valid passport or
 - (b) a current Irish driving licence, or learner driver permit, or
 - (c) a Public Services Card issued by the Department of Social Protection
 - (ii) the person supplying the materials provides proof of their current address, such proof being:
 - (a) a current utility bill addressed to that person at their stated address, or,
 - (b) a document issued by a Government Department addressed to that person at their stated address within the previous three months, or,
 - (c) a current car or home insurance policy addressed to that person at their stated address or
 - (d) a current Tax Credit Certificate or Tax Clearance Certificate issued by the Office of the Revenue Commissioners to that person at their stated address.
 - (iii) that the records shall be kept of the name, identity, registration number and where appropriate, waste collection permit number of the delivery vehicle.
 - (iv) that a description and weight of the materials, time and date of sale and the amount paid shall be recorded.
 - (v) a signed statement by the person supplying the material that they are the lawful owner of the material or have the consent of the lawful owner concerned.

- 3.7 The permit holder shall maintain a written record of all complaints of an environmental nature related to the site. Each such record shall give details of the following.
- a) Date and time of complaint;
 - b) Name of complainant;
 - c) Details of the nature of the complaint;
 - d) Action taken on foot of the complaint and the results of such actions;
 - e) Response to each complainant.
- 3.8 The permit holder shall submit an Annual Report to the National Waste Collection Permit Office (NWCPO), in a format approved by the NWCPO. This Annual Report shall be submitted for the preceding calendar year by no later than 28th February of each year and within one month of waste activities ceasing on the site.
- 3.9 The permit holder shall make all records maintained on site available to Kildare County Council staff at all reasonable times and shall provide any relevant information when so requested by an authorised person of Kildare County Council. The information compiled in respect of conditions 3.3 to 3.7 inclusive, shall be maintained at the principal place of business for a period of not less than 7 years
- 3.10 The permit holder shall notify Kildare County Council within five working days of-
- (i) the imposition of any requirement on that person and company by order under the Waste Management Acts 1996, as amended or
 - (ii) any conviction of that person and company for an offence prescribed under the Waste Management Acts 1996, as amended.
- 3.11 Within **one month** of waste activities ceasing on the site, the permit holder shall submit a report to Kildare County Council which shall include the information contained in the written records described above, and details of any impositions or convictions imposed under the Waste Management Act, 1996, as amended. In addition, the permit holder shall include in the report a written summary of compliance with all of the conditions of the waste facility permit.

<p>REASON: To provide for the notification of incidents, to update information on the activity and to provide for the keeping of proper records.</p>
--

Condition 4: MATERIALS ACCEPTANCE AND HANDLING

- 4.1 Only waste types specified in Appendix A are permitted at the facility.
- 4.2 The permit holder shall ensure that storage, disposal, depollution, recycling or recovery of waste shall only take place in accordance with the conditions of this permit and in accordance with the appropriate National and European legislation and protocols.
- 4.3 The permit holder shall ensure that all waste arriving at the facility shall be subject to a visual inspection by the permit holder, or his/her staff, employees, lessees or agents. The permit holder shall remove immediately any waste placed at the facility other than waste permitted in condition 4.1. This waste shall be placed in a quarantine area. Waste shall be stored under appropriate conditions in the quarantine area to avoid putrefaction, odour generation, the attraction of vermin and any other nuisance or objectionable condition. This waste material shall be removed from the facility within 2 weeks of arrival at the facility and shall be disposed of (or recovered) at an alternative facility with an appropriate waste permit/ certificate of registration or waste licence.
- 4.4 The permit holder shall ensure that any crashed/ immobilised vehicles or End of Life Vehicles accepted at the facility are not leaking any fluids. Procedures shall be in place to ensure that any leaking fluids are collected immediately and the fluids are stored in an appropriately bunded container
- 4.5 The permit holder shall ensure that no waste shall be stored/recovered, depolluted or dismantled at the facility in other than designated storage areas as specified in condition 1.6. The storage areas shall be clearly marked.
- 4.6 The permit holder shall ensure that a record of all inspections of incoming waste loads and end of life vehicles are maintained.
- 4.7 The permit holder shall ensure that all wastes shall only be accepted at the facility from known customers or new customers subject to initial waste profiling and waste characterisation off-site. The written records of off-site waste profiling and characterisation shall be retained by the permit holder for all active customers and for a two-year period following termination of permit holder/customer agreements.
- 4.8 The permit holder shall ensure that all containers accepted or used at the facility shall be in good condition and fit for purpose. The contents of any leaking or otherwise ruptured container shall immediately be transferred to a suitable container, in a manner which will not adversely affect the environment. Any spillages shall be cleaned up so as not to adversely affect the environment or the performance of a petrol oil interceptor.
- 4.9 Waste recovery, dismantling, storage and processing shall be as shown on the Site Layout Plan, titled "Waste Processing", drawing no. A231 – WFP004, scale 1:500, received by the Kildare County Council on the 15th September

2025. except where altered or amended by conditions of this waste permit.
Each designated waste area shall be clearly marked.

- 4.10 The permit holder shall ensure that scavenging is not permitted at the facility.
- 4.11 The permit holder shall ensure that the site is secured when the facility is unsupervised.
- 4.12 The permit holder shall ensure that public lighting is provided throughout the site to the standards laid down by the E.S.B. and to the satisfaction of the Transportation Section of Kildare County Council.
- 4.13 All tanks and drums shall be labelled to clearly indicate their contents.
- 4.14 All storage bays shall be labelled to clearly indicate their contents
- 4.15 The quantity of waste to be accepted at the facility on a daily basis shall not exceed the duty capacity of the equipment at the facility. Any exceedance of this intake shall be treated as an incident. All such incidents shall be recorded.
- 4.16 The permit holder shall ensure that fuels are only stored at appropriately bunded locations on the facility.
- 4.17 The permit holder shall ensure in the civic amenity area of the site that special waste such as (household hazardous materials, such as paints, aerosols) shall be stored in securely locked chem.-store units or other appropriately bunded units.
- 4.18 The permit holder shall ensure that all wastes including hazardous liquids and wastes are sent to authorised waste facility for disposal/recovery.
- 4.19 The permit holder shall ensure that all tanks and drums are labelled to clearly indicate their contents.
- 4.20 The permit holder shall ensure that no smoking is allowed in waste handling areas.
- 4.21 The permit holder shall submit a written proposal to Kildare County Council, for agreement, on any proposed new waste processing procedure, along with relevant details, prior to any such process or associated works being carried out.
- 4.22 The permit holder shall ensure that all hauliers importing waste to or removing waste from the facility shall hold a valid waste collection permit in accordance with the Waste Management (Collection Permit) Regulations 2007, as amended.
- 4.23 The permit holder shall not export waste from the State unless such export is fully in compliance with the Waste Management (Transfrontier Shipment of Waste) Regulations, 2007 and the Waste Management (Movement of Hazardous Waste) Regulations, 1998.

4.24 SPECIFIC END OF LIFE VEHICLE (ELV) ACCEPTANCE AND HANDLING CONDITIONS:

- (a) The permit holder shall ensure that:
 - (i) incoming end-of-life vehicles are stored and recovered on an impervious base with provision for spillage collection facilities prior to and during the de-pollution process.
 - (ii) all fluids (petrol, diesel, engine oil, hydraulic oil, brake and clutch fluids and anti-freeze etc.) are drained before dismantling commences and that these fluids are temporarily stored on site in appropriate containers or immediately removed by an authorised Waste Collection Permit holder and brought to an authorised waste permitted/ licensed facility in an environmentally sound manner.
 - (iii) lead acid batteries are removed from incoming end-of-life vehicles and that these batteries are temporarily stored on site in appropriate containers in an environmentally sound manner pending removal off-site by an authorised Waste Collection Permit holder and in compliance with the European Union (Batteries and Accumulators) Regulations 2014 (S.I. No. 283 of 2014).
 - (iv) unless otherwise agreed with Kildare County Council, filters are removed from incoming end-of-life vehicles and that these filters are temporarily stored on site in appropriate containers in an environmentally sound manner pending removal off-site by an authorised Waste Collection Permit holder.
 - (v) used tyres are stored in a safe manner that does not constitute a fire hazard and excessive stockpiling is avoided pending removal off-site by an authorised Waste Collection Permit holder. All requirements of the Waste Management (Tyres and Waste Tyres) Regulations 2017 – S.I. No. 400/2017 shall be complied with.
 - (vi) All air conditioning systems, air bags, catalysts and other hazardous components and materials are removed from incoming end-of - life vehicle and stored on site in appropriate containers in an environmentally sound manner pending removal off-site by an authorised Waste Collection Permit holder and brought to an authorised waste permitted/ licensed facility.
 - (vii) When dismantling an end-of-life vehicle or removing fluids from a component of an end-of-life vehicle, the permit holder shall have regard to the dismantling information specified by the producer of that vehicle under Article 29 of the European Union (End of Life Vehicles) Regulations 2014, as amended.

- (b) While awaiting collection, the permit holder shall provide the following designated storage areas for :
- (i) appropriate storage for dismantled spare parts, including storage on an impermeable surface for oil-contaminated spare parts
 - (ii) appropriate separate containers for storage of batteries, oil filters and PCB/PCT- containing condensers
 - (iii) appropriate bunded storage tanks for all fuels, oils and all other fluids generated during the dismantling process.
 - iv storage containers for windscreen, and glass breakages
 - (v) appropriate storage for tyres as per the Waste Management (Tyres and Waste Tyres) Regulations 2017, so as to prevent the creation of a fire hazard and excessive stockpiling.
- (c) The permit holder shall ensure that storage operations are carried out in such a manner so as to avoid damage to components containing fluid, recoverable components and spare parts.
- (d) The permit holder shall ensure that the impermeable surface of the vehicle de-pollution floor shall be cleaned on a regular basis. The floor used for recovered wastes shall also be cleaned on a regular basis.
- (e) The permit holder shall ensure that different categories of hazardous wastes (e.g., waste oils, fluids, batteries etc.) are kept separate. No mixing of hazardous waste shall take place unless specifically authorised by Kildare County Council.
- (f) The permit holder shall ensure that the shells of the end-of-life vehicles and their constituent metal parts shall be transferred to a permitted /licensed metal recovery plant by an authorised Waste Collection Permit holder.
- (g) The permit holder shall ensure that all waste hauled to and from the site shall be conveyed by an authorised Waste Collection Permit holder. In addition, all waste shall be transported to the facility in a manner that will not adversely affect the environment.
- (h) The permit holder shall ensure that liquids arising from vehicle crushing shall be prevented from contaminating surface and groundwaters and discharging to sewerage. Vehicle crushing shall only be carried out on an impermeable surface. Interceptors shall be put in place to ensure that no hazardous liquids discharge to surface waters or groundwaters. All tanks and containers shall be clearly labelled to indicate their contents. No processing of batteries shall occur at the facility. An adequate supply of spill containment and absorbent material shall be available at all times. Contaminated spill containment and absorbent material shall be properly stored and disposed of at an approved facility. All such hazardous liquids including engine oil, hydraulic brake and clutch fluid and battery acid shall be disposed of to the satisfaction of Kildare

County Council. Waste oils shall not discharge to waters or drainage systems. All interceptors shall have sufficient capacity to prevent pollution spills and are subject to the approval of Kildare County Council, who may issue directions in relation to upgrading the units and upgrades must be carried out within the time period specified.

- (i) The permit holder shall ensure that waste material shall be stored on an impermeable surface with an appropriate drainage system, including interceptor traps. Interceptor traps shall be inspected weekly and emptied when required. A register of inspections and maintenance of the interceptor traps shall be maintained on site.
- (j) The permit holder shall ensure that all waste oils shall be recovered and safely stored prior to collection by an authorised operator. Should the permit holder produce more than 500 litres waste oil / annum, information in accordance with Waste Management (Hazardous Waste) Regulations 1998 shall be maintained on site.
- (k) The permit holder shall ensure that all hazardous liquids/components associated with the E.L.V. operation are stored in appropriate bunded/containers and sent to an authorised licensed/permited site for disposal. Depollution of a vehicle requires the removal of all hazardous liquids and solids from the vehicle prior to the storage of the car body on site.
- (l) The permit holder shall ensure that spill kits are retained at appropriate locations on site.

REASON: To provide for the acceptance and management of wastes authorised under this waste permit
--

Condition 5: SITE INFRASTRUCTURE

- 5.1 The permit holder shall ensure that all infrastructure referred to in the waste permit and waste permit application shall be installed at the site.
- 5.2 The permit holder shall ensure that all surface water likely to be contaminated shall pass through adequately sized and sited silt trap(s), petrol/oil interceptor(s) and attenuation tank(s) before discharge to the surface water system and as shown on Proposed Surface Water Network Layout Plan, drawing number A231-WFP005, received by Kildare County Council on the 15/09/2025.
- 5.3 The permit holder shall ensure that all foul sewage, trade effluent and soiled water shall pass through adequately sized and sited silt trap(s) and petrol oil interceptor(s) before discharge to the foul sewer system and as shown on Proposed Foul Network Layout Plan, drawing number A231-WFP006, received by Kildare County Council on the 15/09/2025.
- 5.4 The permit holder shall ensure that a storage bay shall be positioned under the trommel for the collection of fines. The storage bay shall comprise of two side walls and one rear wall, with one front opening for emptying.
- 5.5 A site notice board shall be provided and maintained on site by the permit holder, so that it is legible to persons outside the main entrance to the facility. The minimum dimensions of the identification board shall be 1200mm by 750mm. The board shall clearly show:
 - a) the name and telephone number of the facility;
 - b) the normal hours of operation;
 - c) the name, address and telephone number of the waste permit holder;
 - d) an emergency out of hours contact telephone number;
 - e) the name address and telephone number of the operator of the facility;
 - f) the waste permit reference number;
 - g) where and when environmental monitoring information relating to the facility can be obtained.
- 5.6 A plan of the facility clearly identifying the location of each storage and treatment area shall be displayed as close as is possible to the entrance of the facility. The plan shall be displayed on a durable material such that it is legible at all times.
- 5.7 The facility shall be secured at all times and shall be kept locked when unsupervised.
- 5.8 The permit holder shall provide and maintain an office on the facility including a working telephone and computer and the office shall be suitable for processing and storing of documentation.

- 5.9 The permit holder shall ensure that Waste Storage Areas, Waste Recovery Areas, Depollution Area and a Waste Quarantine Area shall be provided and maintained at the facility.
- 5.10 All waste storage areas, waste recovery area, depollution area and the waste quarantine area shall be rendered impervious to the material stored in them.
- 5.11 The permit holder shall ensure that all tanks and drum storage areas shall be adequately bunded to protect against spillage. Bunding shall be impermeable and capable of retaining a volume equal or greater than 110% of the capacity of the largest tank or drum within the bunded area; or 25% of the total volume of substance which could be stored within the bunded area, whichever is greater. Filling and offtake points shall be located within the bunded areas.
- 5.12 The permit holder shall ensure that shut off valve(s) shall be fitted to the outlet of all petrol oil interceptor(s) on site in order to contain a significant spill.
- 5.13 The permit holder shall ensure that all inlets, outlets, vent pipes, valves and gauges are within the bunded area.
- 5.14 The permit holder shall ensure that all tanks, containers and drums shall be labelled to clearly indicate their contents.
- 5.15 The permit holder shall provide a weighbridge and wheel cleaning capability at the facility.
- 5.16 The permit holder shall ensure that items of plant deemed critical to the efficient and adequate processing of waste at the site shall be provided on the following basis:-
- (i) 100% duty capacity
 - (i) 100% standby capacity available on a routine basis; and
 - (iii) provision of contingency arrangements and/or back up and spares in the case of breakdown of critical equipment.
- 5.17 The permit holder shall ensure that all tank, container and drum storage areas are rendered impervious to the materials stored therein.
- 5.18 The permit holder shall ensure that all drainage from bunded areas shall be treated as hazardous waste unless it can be demonstrated to be otherwise. All drainage from bunded areas shall be diverted for collection and safe disposal to an authorised facility.
- 5.19 The permit holder shall ensure that no surface water from the site shall be permitted to flow onto the public road.

- 5.20 The permit holder shall not allow any over spill of waste outside the perimeter of the site or into surface water drains or streams or any water courses.
- 5.21 The permit holder shall ensure that existing land and roadside drainage shall not be impaired.
- 5.22 The permit holder shall ensure that the surface water systems, bunds, silt traps and oil separators shall be inspected weekly, desludged as necessary and properly maintained at all times.
All sludge and drainage from these operations shall be collected for safe disposal. A written record shall be kept of the inspections, desludging, cleaning, disposal of associated waste products, maintenance and performance of the silt traps, interceptors, bunds and drains.
- 5.23 An assessment by a suitably qualified competent independent person shall be carried out every 3 years on the structural integrity of the attenuation tank(s) and certification of its integrity shall be submitted to Kildare County Council.
- 5.24 The waste permit holder shall install and provide adequate measures for the control of odours, noise and dust emissions, including fugitive dust emissions, from the facility.
- 5.25 The permit holder shall ensure that there is a provision of 100% duty capacity and 100% stand by capacity, back ups and spares must be provided for the air handling, ventilation and abatement plant.
- 5.26 The permit holder shall ensure that no skips or vehicles are parked on the estate road.

REASON: To provide appropriate infrastructure for the protection of the environment
--

Condition 6: EMISSIONS

- 6.1 The permit holder shall ensure that no specified emission from the facility shall exceed the emission limit values set out in Appendix B: Emission Limits. There shall be no other emissions of environmental significance.
- 6.2 The permit holder shall ensure that the activities are carried out in a manner such that emissions do not result in significant impairment of, or significant interference with the environment beyond the facility boundary.
- 6.3 The permit holder shall ensure that there is no direct discharge to groundwater.
- 6.4 The permit holder shall ensure that:
- (a) Noise from the development shall not give rise to sound pressure levels (Leq 15 minutes) measured at *noise sensitive locations which exceed the following limits:
 - (i) 55 dB(A) between the hours of 0800 and 1800 Monday to Friday inclusive (excluding bank holidays)
 - (ii) 45 dB(A) at any other time.
 - (b) There shall be no clearly audible tonal component or impulsive component in the noise emission from the development at any *noise sensitive location.
- Note: *Noise sensitive location:**
Any dwelling house, hotel or hostel, health building, educational establishment, place of worship or entertainment, or any other facility or area of high amenity which for its proper enjoyment requires the absence of noise at nuisance levels.
- 6.5 The permit holder shall ensure that the total dust emission arising from all the on-site operations associated with the waste activities shall not exceed 350 milligrams per metre squared per day, averaged over a continuous period of 30 days, when measured as deposition of insoluble particulate matter at any position along the boundary of the site.
- 6.6 The permit holder shall at **no** time discharge or permit to be discharged into the sewer any liquid matter or thing that is or may be liable to set or congeal at average sewer temperature or is capable of giving off any inflammable or explosive gas or any acid, alkali or other substance in sufficient concentration to cause corrosion to sewer pipes, penstock and sewer fittings or the general integrity of the sewer.

REASON: To control emissions from the facility and provide for the protection of the environment.

CONDITION 7: NUISANCE CONTROL

- 7.1 The permit holder shall ensure that vermin, birds, flies, mud, dust, litter and odours do not give rise to nuisance at the facility or in the immediate area of the facility. Any method used by the permit holder to control any such nuisance shall not cause environmental pollution.
- 7.2 The permit holder shall ensure that the road network in the vicinity of the facility is kept free of any debris caused by vehicles entering or leaving the facility. Any such debris or deposited materials shall be removed without delay.
- 7.3 Litter Control
 - 7.3.1 The permit holder shall ensure that all loose litter or other waste, placed on or in the vicinity of the facility, other than in accordance with the requirements of this permit, shall be removed immediately, subject to the agreement of the landowners and in any event by 10.00am of the next working day after such waste is discovered.
 - 7.3.2 The permit holder shall ensure that all vehicles delivering waste to and removing waste and materials from the facility are appropriately covered.
- 7.4 The permit holder shall maintain a programme for the control and eradication of vermin at the facility. The measures to be employed shall be agreed in advance with Kildare County Council.

REASON: <i>To provide for the control of nuisances.</i>
--

Condition 8: CONTINGENCY ARRANGEMENTS

- 8.1 The permit holder shall ensure that a documented Accident Prevention Procedure is in place, which addresses the hazards on-site, including the prevention of accidents with a possible impact on the environment. This procedure shall be reviewed annually and updated as necessary.
- 8.2 The permit holder shall, ensure that a documented Emergency Response Procedure is in place, to address any emergency situation, which may originate on-site. This procedure shall include provision for minimising the effects of any emergency on the environment. This procedure shall be reviewed annually and updated as necessary.
- 8.3 The permit holder shall have in storage an adequate supply of containment booms and suitable absorbent material to contain and absorb any spillage at the facility. Once used, the absorbent material shall be disposed of at an authorised facility. Any significant spillages occurring at the facility shall be treated as an emergency and immediately cleaned up and dealt with so as to alleviate their effects.
- 8.4 The permit holder shall ensure that in the event of a breakdown of equipment or any other occurrence, which results in the closure of the waste facility, any waste arriving at or already collected at the facility shall be transferred directly to an authorised facility until such time as the waste facility is returned to a fully operational status. Such a breakdown event shall be treated as an emergency and rectified as soon as possible.
- 8.5 Adequate fire extinguishers and emergency response equipment shall be maintained at the facility. The permit holder shall ensure that no waste shall be burnt within the boundaries of the facility. A fire at the facility shall be treated as an emergency. Immediate action shall be taken to extinguish it and the appropriate authorities notified.
- 8.6 In the event that any monitoring, sampling or observations indicate that contamination has, or may have taken place, the operator shall immediately:
- a) identify the date time and place of contamination;
 - b) carry out an immediate investigation to identify the nature, source and cause of the incident and any emission;
 - c) isolate the source of the emission;
 - d) evaluate the environmental pollution if any;
 - e) identify and execute measures to minimise the emissions and effects thereof;
 - f) identify and put in place measures to avoid re-occurrence;
 - g) identify and put in place any other appropriate remedial action, and
 - h) maintain a written record of the above.

REASON: To provide for the protection of the environment.

CONDITION 9 : MONITORING

- 9.1 Authorised staff of Kildare County Council shall have access to the site at all reasonable times, for the purpose of their functions under the Waste Management Acts 1996, as amended, including such inspections, monitoring and investigations as are deemed necessary by the Council.
- 9.2 The permit holder shall carry out such monitoring at such locations and frequencies as set out in Appendix C: Monitoring and as specified in this waste facility permit. Bi-Annual monitoring of the petrol oil interceptor, dust and noise shall be submitted by 1st April and 1st October of each year. All monitoring results shall be submitted to the Environment Section of Kildare County Council.
- 9.3 The permit holder shall amend the frequency, locations, methods and scope of monitoring as required by this waste permit, only upon the written instruction of Kildare County Council and shall provide such information concerning such amendments, as may be requested, in writing by Kildare County Council. Such alterations shall be carried out within any timescale specified by Kildare County Council.
- 9.4 Monitoring and analysis equipment shall be operated and maintained in accordance with the manufacturer's instructions, so that all monitoring results accurately reflect any emission, discharge or environmental parameter.
- 9.5 The permit holder shall provide safe and permanent access to all on-site sampling and monitoring points and to off-site points, as required by the Kildare County Council.
- 9.6 The permit holder shall maintain all sampling and monitoring points, and clearly label and name all sampling and monitoring locations.
- 9.7 Within **one month** of the date of grant of this waste permit, the following information shall be submitted to Kildare County Council for its agreement: the names, qualifications and a summary of relevant experience of all persons that will carry out sampling and monitoring, as required by this waste permit, and who carry out the interpretation of the results of such sampling and monitoring.
Any proposed changes to the above shall be submitted in writing to Kildare County Council for its agreement.
- 9.8 The permit holder shall, at a minimum of one week intervals, inspect the facility and its immediate surrounds for nuisances caused by litter, vermin, birds, flies, mud, dust and odours.

REASON: *To ensure compliance with the conditions of this waste permit by provision of a satisfactory system of monitoring of emissions.*

CONDITION 10: EXPIRY/REVOKING OF PERMIT AND AFTERCARE OF FACILITY

- 10.1 In the event of this permit being revoked or a new permit not being issued on the expiration of this permit, whether by way of the permit holder not applying for a new permit or the Council not granting a new permit, the permit holder shall immediately cease the acceptance and recovery of material at the facility.
- 10.2 Following the termination, or planned cessation of use or involvement of all or part of the site in the permitted facility, the permit holder, in a manner to be approved by the Council, shall decommission, render safe or remove for disposal/recovery, any plant or equipment, or any waste materials or end of life vehicles, substances or other matter contained therein or thereon, that may result in environmental pollution.

REASON: To provide for the decommissioning of the facility and aftercare of the facility on which the facility is located.

Condition 11: CHARGES AND FINANCIAL PROVISIONS

- 11.1 The permit holder shall pay an annual contribution of €1000 to Kildare County Council towards the cost of inspecting, monitoring, auditing, enforcing or otherwise performing any functions in relation to the permitted activity concerned. The permit holder shall pay to Kildare County Council this amount on an annual basis. In the event that the frequency or extent of monitoring or other functions carried out by Kildare County Council needs to be increased for whatever reason the permit holder shall contribute such sums as are determined by the LA to defray costs.
- 11.2 The permit holder shall effect and maintain a policy of insurance insuring the company as respects any liability on its part arising from site activities. This policy shall cover damage to persons or property or damage to the environment which requires remedial action. This policy shall be extended to indemnify Kildare County Council. The policy cover shall be for €6,500,000. A copy of the policy shall be submitted to Kildare County Council within **4 weeks** of the date of the waste facility permit.

REASON: To provide for adequate financing for monitoring and financial provisions for measures to protect the environment.

Appendix A : Waste Types Permitted

02 WASTES FROM AGRICULTURE, HORTICULTURE, AQUACULTURE, FORESTRY, HUNTING AND FISHING, FOOD PREPARATION AND PROCESSING

02 01 10 waste metal

12 WASTES FROM SHAPING AND PHYSICAL AND MECHANICAL SURFACE TREATMENT OF METALS AND PLASTICS

12 01 wastes from shaping and physical and mechanical surface treatment of metals and plastics

12 01 01 ferrous metal filings and turnings

15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED

15 01 packaging (including separately collected municipal packaging waste)

15 01 01 paper and cardboard packaging

15 01 04 metallic packaging

16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST

16 01 end-of-life vehicles from different means of transport (including off-road machinery) and wastes from dismantling of end-of-life vehicles and vehicle maintenance (except 13, 14, 16 06 and 16 08)

16 01 03 end-of-life tyres

16 01 04* end-of-life vehicles

16 01 06 end-of-life vehicles, containing neither liquids nor other hazardous components

16 01 12 brake pads other than those mentioned in 16 01 11

16 01 17 ferrous metal

16 01 18 non-ferrous metal

16 01 19 plastic

16 01 20 glass

16 01 22 components not otherwise specified

16 01 99 wastes not otherwise specified

16 02 wastes from electrical and electronic equipment

- 16 02 09* transformers and capacitors containing PCBs
- 16 02 10* discarded equipment containing or contaminated by PCBs other than those mentioned in 16 02 09
- 16 02 11* discarded equipment containing chlorofluorocarbons, HCFC, HFC
- 16 02 13* discarded equipment containing hazardous components ⁽¹⁶⁾ other than those mentioned in 16 02 09 to 16 02 12.
- 16 02 14 discarded equipment other than those mentioned in 16 02 09 to 16 02 13
- 16 02 15* hazardous components removed from discarded equipment
- 16 02 16 components removed from discarded equipment other than those mentioned in 16 02 15

16 06 batteries and accumulators

- 16 06 01* lead batteries
- 16 06 02* Ni-Cd batteries
- 16 06 03* mercury-containing batteries
- 16 06 04 alkaline batteries (except 16 06 03)
- 16 06 05 other batteries and accumulators
- 16 06 06* separately collected electrolyte from batteries and accumulators

16 08 spent catalysts

- 16 08 01 spent catalysts containing gold, silver, rhenium, rhodium, palladium, iridium or platinum (except 16 08 07)
- 16 08 03 spent catalysts containing transition metals or transition metal compounds not otherwise specified
- 16 08 04 spent fluid catalytic cracking catalysts (except 16 08 07)

17 CONSTRUCTION AND DEMOLITION WASTES (INCLUDING EXCAVATED SOIL FROM CONTAMINATED SITES)

17 01 concrete, bricks, tiles and ceramics

- 17 01 01 concrete
- 17 01 02 bricks
- 17 01 03 tiles and ceramics
- 17 01 07 mixture of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06

17 02 wood, glass and plastic

- 17 02 01 wood
- 17 02 02 glass
- 17 02 03 plastic

17 03 bituminous mixtures, coal tar and tarred products

17 03 02 bituminous mixtures containing other than those mentioned in 17 03 01

17 04 metals (including their alloys)

17 04 01 copper, bronze, brass

17 04 02 aluminium

17 04 03 lead

17 04 04 zinc

17 04 05 iron and steel

17 04 06 tin

17 04 07 mixed metals

17 04 10* cable containing oil, coal tar and other dangerous substances

17 04 11 cables other than those mentioned in 17 04 10

17 05 soil (including excavated soil from contaminated sites), stones and dredging spoil

17 05 04 soil and stones other than those mentioned in 17 05 03

17 05 08 track ballast other than those mentioned in 17 05 07

17 06 insulation materials and asbestos-containing construction materials

17 06 04 insulation materials other than those mentioned in 17 06 01 and 17 06 03

17 08 gypsum-based construction material

17 08 02 gypsum-based construction materials other than those mentioned in 17 08 01

17 09 other construction and demolition waste

17 09 04 mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03

19 WATER TREATMENT PLANTS AND THE PREPARATION OF WATER INTENDED FOR HUMAN CONSUMPTION AND WATER FOR INDUSTRIAL USE

19 01 wastes from incineration or pyrolysis of waste

19 01 02 ferrous materials removed from bottom ash

19 10 waste from shredding of metal-containing wastes

- 19 10 05* other fractions containing dangerous substances
- 19 10 06 other fractions other than those mentioned in 19 10 05

19 12 wastes from the mechanical treatment of waste (for example sorting, crushing, compacting, pelletising) not otherwise specified

- 19 12 02 ferrous metal
- 19 12 03 non-ferrous metal
- 19 12 07 wood other than that mentioned in 19 12 06
- 19 12 10 combustible waste (refuse derived fuel)
- 19 12 11* other wastes (including mixture of materials) from mechanical treatment of waste containing dangerous substances
- 19 12 12 other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11

20 MUNICIPAL WASTES (HOUSEHOLD WASTE AND SIMILAR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL WASTES) INCLUDING SEPARATELY COLLECTED FRACTIONS

20 01 separately collected fractions (except 15 01)

- 20 01 01 paper and cardboard
- 20 01 02 glass
- 20 01 10 clothes
- 20 01 11 textiles
- 20 01 33* batteries and accumulators included in 16 06 01, 16 06 02 or 16 06 03 and unsorted batteries and accumulators containing these batteries
- 20 01 34 batteries and accumulators other than those mentioned in 20 01 33
- 20 01 35* discarded electrical and electronic equipment other than those mentioned in 20 01 21 and 20 01 23 containing hazardous components (21)
- 20 01 36 discarded electrical and electronic equipment other than those mentioned in 20 01 21, 20 01 23 and 20 01 35
- 20 01 38 wood other than that mentioned in 20 01 37
- 20 01 39 plastics
- 20 01 40 metals
- 20 01 41 wastes from chimney sweeping
- 20 01 99 other fractions not otherwise specified

20 02 garden and park wastes (including cemetery waste)

- 20 02 01 biodegradable waste
- 20 02 02 soil and stones
- 20 02 03 other non-biodegradable wastes

20 03 other municipal wastes

- 20 03 01 mixed municipal waste
- 20 03 03 street-cleaning residues
- 20 03 07 bulky waste
- 20 03 99 municipal wastes not otherwise specified

Please Note: Any waste marked with an asterisk (*) is considered as a hazardous waste pursuant to Directive 91/689/EEC on hazardous waste, and subject to the provisions of that Directive unless Article 1 (5) of that Directive applies.

APPENDIX B: Emission Limits

B.1 Noise Emissions: (Measured at the noise sensitive locations indicated in Appendix C)

Day dB(A) LAeq(15 minutes)	Night dB(A) LAeq(15 minutes)
55	45

B.2 Dust Deposition Limits: (Measured at the monitoring points indicated in Appendix C)

Level (mg/m ² /day) ^{Note 1}
350

Note 1: 30 day composite sample with the results expressed as mg/m²/day.

B.3 Discharge from the petrol oil interceptor (Measured at the monitoring point(s) indicated in Appendix C).

Parameter	Emission Limit Value mg/l
BOD	25
Suspended Solids	35
Mineral Oils	10

APPENDIX C : Monitoring

Monitoring to be carried out as specified below.

C.1 Monitoring Locations

Monitoring locations shall be those as set out in Table C.1.1 below

Table C.1.1 Monitoring Locations for Noise, Dust and Surface Water

NOISE ^{Note1} LOCATIONS	DUST LOCATIONS^{Note2}	Outlet of Petrol/Oil Interceptor LOCATIONS ^{Note 3}
N1, N2, N3	D1 & D2	Outlet of Petrol Oil Interceptor(s)

Note 1: As shown on Environmental Monitoring Site Layout Plan, scale 1:500 received by the Kildare County Council on the 15/09/2025.

Note 2: As shown on Environmental Monitoring Site Layout Plan, scale 1:500 received by the Kildare County Council on the 15/09/2025.

Note 3: Sample to be taken at the Outlet of the Petrol/Oil Interceptor(s).

C.2 Dust

Table C.2.1 Dust Monitoring Frequency and Technique

Parameter (mg/m² /day)	Monitoring Frequency	Analysis Method/Technique
Dust	Bi - Annually	Standard Method ^{Note1}

Note 1: Standard method VDI2119 (Measurement of Dustfall, Determination of Dustfall using Bergerhoff Instrument (Standard Method) German Engineering Institute). A modification (not included in the standard) which 2 methoxy ethanol may be employed to eliminate interference due to algae growth in the gauge.

C.3 Noise

Table C.3.1 Noise Monitoring Frequency and Technique

Parameter	Monitoring Frequency	Analysis Method/Technique
L(A)EQ [15 minutes]	Bi-annually	Standard ^{Note1}
L(A) ₁₀ [15 minutes]	Bi-annually	Standard ^{Note1}
L(A) ₉₀ [15 minutes]	Bi-annually	Standard ^{Note1}
Frequency Analysis (1/3 Octave band analysis)	Bi-annually	Standard ^{Note1}

Note 1: "International Standards Organisation. ISO 1996. Acoustics - description and Measurement of Environmental noise. Parts 1, 2 and 3."

C.4 Discharge from Petrol Oil Interceptor

Table C.4.1 Outlet of the Petrol/Oil Interceptor

Parameter	Monitoring Frequency	Analysis Method/Technique
Visual Inspection	Weekly	Not applicable
BOD	Bi-annually	Standard Methods
Total Suspended Solids	Bi-annually	Standard Methods
Mineral Oils	Bi-annually	GC-FID

APPENDIX D

SCHEDULE 3

MINIMUM REQUIREMENTS FOR THE CERTIFICATE OF DESTRUCTION ISSUED IN ACCORDANCE WITH ARTICLE 5(3) OF DIRECTIVE 2000/53/EC ON END OF LIFE VEHICLES

1. Name, address, signature and waste permit number, or as appropriate, waste licence number, of the establishment or undertaking issuing the certificate.
2. Name and address of competent authority responsible for the permit, or as appropriate, licence, (in accordance with Article 6(2) of Directive 2000/53/EC) for the establishment or undertaking issuing the certificate of destruction.
3. Where the certificate of destruction is issued by a producer, dealer or collector on behalf of an authorised treatment facility, the name and address and waste permit number, or as appropriate, waste licence number, of the establishment or undertaking issuing the certificate.
4. Date of issue of the certificate of destruction.
5. Vehicle nationality mark and registration number (attach the registration document or a statement by the establishment or undertaking issuing the certificate that the registration document has been destroyed).
6. Class of vehicle, brand and model.
7. Vehicle identification number (chassis).
8. Name, address, nationality and signature of the registered owner of the vehicle delivered.
